

New Visitor Parking Instructions

We would like to welcome you back to our offices and make you aware of some changes that have been instituted by our Building Management. They have begun charging for parking and changed some of the access points to our garage. Below is a map showing the entrances for our Visitor Parking. You will be required to pull a ticket upon entry to the garage. Please bring the ticket with you to your meeting and SPH will validate your parking. The paralegals in each meeting will have validation stickers for your parking tickets. The receptionist will also be able to validate your tickets.

Please remember the height limitation for the visitor parking entrance is 6 feet and 6 inches. If your vehicle is oversized, please enter the parking ramp to the roof from the driveway off Post Oak. You will need to press the intercom upon entry and exit for access. We realize these are major changes and we're doing our best to minimize any disruption to your day. The firm would like to thank you in advance for your patience and cooperation. Please notify us of any issue you may encounter.
